

Software Developer's Kit (SDK)

• Enhance regulatory compliance and improve data security

• Custom application development available in the optional

• Enhance productivity with Fujitsu service and support

using strengthened data transmission protocols

ScanSnap fi-6010N iScanner

Color Duplex Network Scanner

Ease of use

- Office linking functionality includes Scan to E-mail, Scan to Folder, Scan to Network Fax, Scan to FTP and Scan to Print
- Advanced imaging functions performed automatically: Rotation, Blank Page Deletion, Color Detection, Deskew, Page Size Detection
- Enhanced "Job button" functionality allows buttons to be programmed with predetermined scan settings, functionality to be performed and destinations to send images
- Large 8.4" XGA touch screen enables users to view scanned images and enter any information with a full US 101 keyboard

Customization

- Save time: Programmable buttons to perform routine tasks
- Customize: Configure jobs for particular departments or vertical applications
- Control: Limit access to scanner features or to particular functionality
- User experience: Job Menu screens are unique to individual login credentials

Simplified device management

- Control all devices on a LAN or WAN via one administration console
- Push updates to remote scanners to keep devices updated
- Track consumable counts to maintain optimal performance

Development and customization (SDK option)

Software Developer Kit (SDK) option available to provide third-party connectivity or create customized look and feel

About Fujitsu Computer Products of America, Inc.

Fujitsu Computer Products of America, Inc., a subsidiary of Fujitsu Ltd., is an established leader in the Document Imaging industry, delivering innovative scanning solutions and services that enable our customers to solve critical business productivity issues and streamline operations. We provide cutting-edge document capture and workflow solutions for business and personal environments, backed by a comprehensive portfolio of service and support programs.
